AMSTERDAM, Sept. The text of President Wilson's note was furnished by the Wolff Bureau, the semi-official news agency, and is fairly semi-official news agency, and is fairly correct and complete, differing from the original only in minor points, most of which might be due to errors in translation. The German version speaks of mobarier, either of law or of truth, isstead of "of law or of mercy," and of a "unicceived but undefeated" instead of a "balked but undefeated" Germany, and of the counter revolution which would be "caused" instead of "attempted" by mailign influences. The American Government repeat-edly declared it does not harbor enmity against the German people, but proof of this assertion has not been furnished. Toscanini Gets Medal for Bravery in War

ROME, Sept. 2.—Arturo Tosca-nini, the noted Italian con-ductor, for many years up to 1915 musical director at the Metropolitan Opera House in New York, has been decorated by the Italian Government for great bravery under fire. In the midst of the fighting and at a time when the Austrian barrage fire was at its height Signor Toscanini led his band to one of the advanced positions, where, sheltered only by a huge rock, the Italian musical celebrity conducted a concert which did not stop until word had been brought to him that the Italian soldiers had stormed and taken the trenches of the Austrians to
